

THE DECORATIVE LIGHTING FIXTURE OF THE CENTURY

HOSTED BY BARN LIGHT ELECTRIC

INTRODUCTORY COURSE | 1 ELECTIVE CREDIT

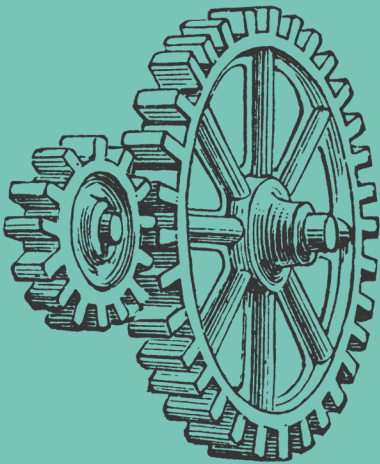

One of our manufacturers, Barn Light Electric, is now a registered AIA CEU course provider and is officially approved for credit by the American Institute of Architects!

COURSE: THE DECORATIVE LIGHTING FIXTURE OF THE CENTURY

In their introductory course, you will discover the world and history of Reflective Luminaire Manufacturer (RLM) Lighting. Learn about the key individuals who influenced this style, the manufacturing techniques commonly used to create these fixtures, and the different decorative finishing methods. This course breaks down the complete anatomy of the RLM lighting fixture highlighting relevant use in real-world applications.

This course covers important topics relating to RLM such as porcelain enameling and artisan manufacturing techniques. Watching the creation of RLM Lighting in person will provide invaluable insights into these processes along with valuable "hands-on" experience with these fixtures.

IF INTERESTED, PLEASE CONTACT US
and we will coordinate with Barn Light Electric.

Barn Light Electric's AIA CEU training is offered at your location for convenience.

Optional factory tours combined with this course are also available onsite at Barn Light's Florida facility!
